Let's Discuss About Mechanical Industry

A blue rectangular graphic containing several icons: a clipboard with a pencil, a stopwatch, a globe, a newspaper labeled 'NEWS', and various arrows and symbols. In the center, there are three overlapping speech bubbles containing the words 'What?', 'Where?', and 'Who?'. Below these, the text 'EVERY FIELD HAS 5W1H' is written in bold black letters. At the bottom of the graphic, the text 'THE 5W1H BECAME MORE MIDSTREAM AFTER KIPLING'S POEM, AND BY 1917, THESE GUIDING PRINCIPALS WERE BEING TAUGHT IN JOURNALISM CLASS.' is written in bold black letters.

EVERY FIELD HAS 5W1H

**THE 5W1H BECAME MORE MIDSTREAM AFTER KIPLING'S POEM,
AND BY 1917, THESE GUIDING PRINCIPALS WERE BEING
TAUGHT IN JOURNALISM CLASS.**

SS SURGICAL SCRUB STATION

▪ FEATURES:-

- **High durability**
- **Easy to use**
- **Superior finish**

We are a coveted manufacturer and supplier of optimum quality SS Surgical Scrub Station. Designed with almost precision, the provided scrub station is manufactured using quality-tested components with the help of ultra-modern technology under the guidance of experienced professionals. Our offered scrub station is widely used in hospitals, clinics to clean surgical products. This scrub station is examined on diverse measures of quality by our quality controllers, in order to ensure its flawlessness.

HATCH BOX FOR HOSPITAL

■ FEATURES:-

- **Anti-corrosive**
- **Ruggedness**
- **Durability**

Our competency lies in offering our customers a fabulous quality scope of Hatch Box for Hospital. Our offered box is manufactured with high exactness utilizing perfect quality parts and modern advances under the stern cautiousness of adroit experts who hold immense involvement in the space. The gave box is utilized to evacuate the waste and keep up more prominent cleanliness in the operation theaters. Moreover, our customers can profit this crate in particular size at pocket inviting cost.

LED X-RAY VIEWER

▪ FEATURES:-

- Built-in ROM can save the switch on brightness for friendly using.
- Low-voltage power supply.
- LEDs produce no UV radiation and little heat, making them ideal for X-ray film view boxes.
- Digital dimmer controller.
- Operate Silently.

We are putting forth our clients with an extensive variety of LED X Ray Viewer that are created utilizing superb crude material under the most extreme consideration of our experts. These X-ray viewers are in fact progressed and guarantee astounding execution. These are generally requested in doctor's facilities and other medicinal services focuses the whole way across the country. We verify that these are manufactured under the carefulness of our quality examiners.

PUFF PANNELS

▪ FEATURES:-

- CFC Free
- Better Extreme temperature performance
- Better Cost-effectiveness
- Ease of application

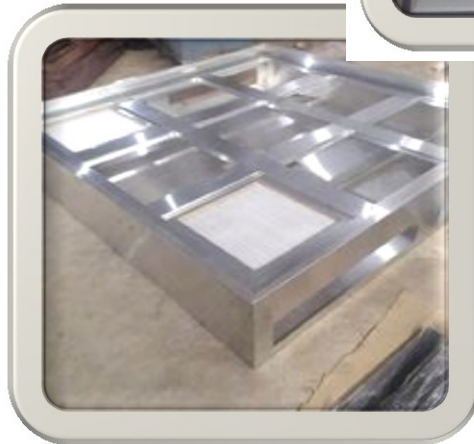

We offer extensive range of PUF insulated Panels, which are suited for applications such as, cold storages, pack houses, CA chambers, banana ripening chambers, freezer rooms. PUF panels are manufactured in a computerized plant and come in pre painted galvanized steel sheets (PPGI) and stainless steel fascias. In this, the density of Poly Urethane Foam (PUF) sandwiched between two fascias is $40 + 2 \text{ Kg/ M}^3$. These insulated panels offer long lasting value with controlled quality, accuracy & speed of construction.

PRESSURE RELIEF DAMPERS

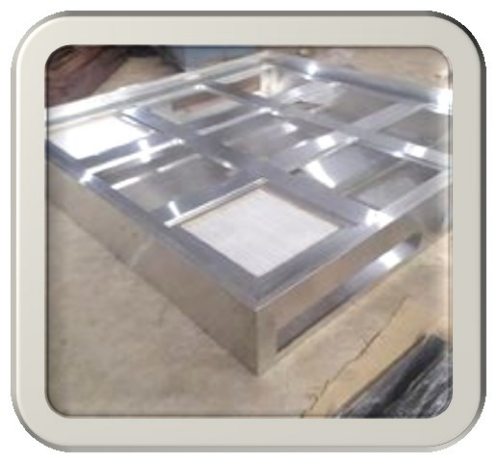

- **Features:**
 - Precisely engineered
 - Corrosion resistance
 - Perfect finish

Pioneer in the industry, we are engaged in offering an impeccable range of **Pressure Relief Dampers**. Only superior quality components and cutting-edge technology are used while manufacturing the offered damper, for increased accordance with industry standards and norms of quality. The provided damper is used in ventilation systems and buildings to prevent excess pressure. Apart from this, our offered damper is widely acknowledged among our patrons for its easy installation and less maintenance.

LAMINAR (MINI FILTER)

We are manufacturing and supplying a quality precision engineered Laminar Air Flow Units for Operation Theatre, which is manufactured with international quality standards. Our Operation Theatre Laminar Air flow ventilation is used in modern orthopedic operating theatres to reduce the number of infective organisms present in the air, which may lead to post-operative infection of the wound.

▪ FEATURES:

- Air-Stream is not directed at the operator causing less stress over
- Larger pieces of equipment cause less
- Larger working area

WRITING BOARD

▪ FEATURES:

- Perfect finish
- Sturdiness
- Scratch proof

Our in-depth knowledge and industrial expertise enable us to offer a distinguished range of **Writing Boards**. We manufacture this board using quality assured material and pioneered technology as per the set industry standards and norms. This board is broadly used in colleges, schools, institutions, corporate offices, etc. To deliver defect free delivery at our patrons' end, our offered board is rigorously tested by our quality examiners against various measures of quality. This board is available in different sizes and designs at rock bottom price.

WRITING BOARD

▪ **FEATURES:**

- Superior design
- Extended durability
- Fine finish

As an answer to the demands in the market, we have developed Medical Storage Unit which excels itself in the performance and quality quotients. We follow the industry guidelines and protocols and have never failed our customers on the grounds of packaging and delivery of the product. This one comes with assorted specifications to meet the varied needs as and when ordered. We are a trusted, established name in the market and have never failed on the aspects such as design, quality, operability and ease of usage.
